Due to road closures for race restrictions - the SET UP SCHEDULE included in this confirmation package is **very tight**. Use your designated Vehicle Entry/Exit Point (VEP - identified on enclosed map) and go directly to your space to off-load only - and then remove car from street. We ask that you not set-up AS you off-load but AFTER you park your car. Our staff (easily identified in **high visibility vests**) will help you find your space and also direct you to parking (Note: some parking is available on site - see circled "P" on map.)

**U.P.S. - U (unload) - P (park) - S (set-up)**

To assist in us contacting you if there are any parking issues with your vehicle during the day - we ask that you include your cell phone # on the entry pass and place pass in a visible location on your dashboard in order for it to be seen as you arrive on site and all day while your vehicle is parked. And remember - let's have fun out there!!

**THANK YOU FOR YOUR COOPERATION AND FOR BEING WITH US!!**
